### Your Driver Advisor on Call

Let's be honest. Most drivers don't know, or much care about, the finer points of the GCR. Until it matters. And then it's too late.

Too often, I see folks confronted with situations where they don't understand the process. They need good advice right now. Often, this is not available. And so they lose to someone who does know the rules.

There is no perfect solution. But here is one bit of help.

I offer a Driver Advisor on Call service.

If you are having a problem, and need a driver advisor, call or email me. I can advise you about the rules and the process and help you deal with the officials. I cannot argue your case for you.

There is no charge or fee for this service.

My cell number is 202 361 8369. Call during daylight hours, please. If Verizon can reach me, I'll pick up. Otherwise, leave a message and I promise to call back as soon as I can.

If your question is not time-critical, please send me an email ([john@johnnesbitt.com](mailto:john@johnnesbitt.com)). I shall respond as quickly as possible.

Keep this leaflet in your track bag. Give copies to your friends. Your enemies, even. You never know.
